COG Meeting Minutes June 1998

Meeting called to order at 8:08 P.M. After much discussion the COG meeting schedule through October 1998 is:

JULY--meeting cancelled

AUGUST: Meet Saturday August 15th for a picnic & climbing session.

Where: Hocking Hills-Conkles Hollow State Forest
Rappelling-Area parking lot.

When: 9:00 AM

Bring: Climbing/rappelling gear and picnic lunch

SEPTEMBER--Regular meeting time and place.

OCTOBER--Meet Saturday, October 10th. Party at the Walden's home.

Current plans include 2PM-rope practice, 7PM bonfire and Scavenger hunt to follow. Bill and Karen will provide burgers and brats. Bring potluck for the rest.

Please disregard the COG meeting schedule from the May minutes published in the last Squeaks. Sorry about the mix-up. Lacie

TREASURER'S REPORT-- \$50.00 in dues taken in. Ending balance \$499.86.

Dick Maxey motioned that the grotto reimburses Bill Walden from the Treasury for the rest of the fieldhouse expense (\$40). Chuck Daehnke seconded. Members voted yes. Bill mentioned that Jon Gardner had donated a door for the fieldhouse. Joe Gibson said he has a wooden interior door that can be used for the fieldhouse.

TOY COMMITTEE--Don Conover passed around a triangular strobe light. Cost: around \$20 for an interesting photography tool.

Don also had a couple of calendar updates: The NCRC cancelled the Dailey, WV course because of lack of sign-ups. Also, the last weekend of September conservation project is cleaning out sinkholes near Peebles, Ohio Cave in Adams Co. OH.

YOUTH COMMITTEE--Pat Kelly said the scout troop didn't make it to MAR.

SQUEAKS COMMITTEE--Got one out.

SURVEY COMMITTEE--No report.

TRIP REPORTS--

Bill Walden went to a Wayne county cave rarely visited by cavers. It is pretty much closed by the owner. The cave had a major stream passage, good rock stratification and lots of oil in the cave.

Joe Gibson took Boy Scouts on May 30th to Climax cave and let them spend some time in the maze section.

Pat Kelly went to MAR in Kutztown, PA. On Saturday he went to Onyx cave, a closed commercial cave, on a private tour and then into another cave with crystal clear water. The cave owner uses the water so they had to be careful. He also went to Speleofest with Jon Gardner.

Went into a saltpetre cave on Saturday and a wetsuit cave on Sunday.

Katie Walden went on a Geology field trip to WV, MD and VA. Ran into too many spiders when she couldn't resist crawling in an opening.

OLD BUSINESS--

The proposed Ohio Cave rescue seminar is running into a problem--Lack of a Cave. Pat Kelly called some places and got negative responses. Let Pat know if some one comes up with a suitable cave. Otherwise, the cave rescue seminar may be dropped.

UPCOMING TRIPS--

- Pat Kelly--Going to Karst-O-Rama
- Lacie Braley--Going to Climax Cave with Girl Scouts
- George Hagan--Going to Rose Cave in Indiana
- Joe Gibson--Wind Cave in South Dakota on vacation.

PROGRAM--Vice-chair Steve Aspery brought in a video of "Bill Nye the Science Guy" on caves. It was fast paced and had some ideas for the grotto Christmas party--It's not too early to start thinking!

Meeting adjourned at 9:40 PM.

COG MEETINGS

The Worthington Presbyterian Church is having events for homeless people the day of our regular meeting in August and October. We will not have access to the church those days.

JULY – No meeting.

Please attend Karst-O-Rama 98 at the Great Saltpetre Cave Preserve, Mount Vernon, Kentucky July 10 through 12, 1998;

AUGUST – No Regular Meeting.

Rope climbing practice and picnic August 15, 1998, 9:00 a.m. Good chance to try out the new equipment you purchased at the convention.

The Central Ohio Grotto will have a rope climbing practice at the Hocking Hills Rappelling area. The rappelling area is east of Conkel's Hollow on Big Pine Road. We plan to meet at 9:00 a.m. in the parking lot for

the climbing area. The parking lot is on the left side of the road if you are approaching from the Conkel's Hollow area. The climbing area is to the right. Bring picnic supplies and plenty to drink. No alcoholic beverages are permitted in Ohio State Parks. We will probably have the picnic later in the afternoon at the Conkel's Hollow picnic area.

SEPTEMBER – Regular meeting.

OCTOBER – No Regular Meeting – Halloween-O-Roast.
Halloween-O-Roast Saturday, October 10, 1998 at the home of Bill and Karen Walden.

Following the tradition started by the late Doctor Jake Elberfeld we will celebrate a Halloween-O-Roast. Activities will begin at 2:00 p.m. for a rope climbing practice in the Walden's barn. This is a good opportunity to test new equipment, modify equipment, or make some new equipment. The grotto has plenty of webbing and there will be stitching awls available.

If the creek is still up, we may have kayaking and canoeing available. (Unlikely in October, but just maybe -- maybe . . .)

The Halloween-O-Roast will begin at 7:00 p.m. with a cook out over a campfire. A short meeting will follow the dinner.

Bring your flashlights. We are planning some type of scavenger hunt in the woods behind the Waldens' property.

NOVEMBER – Regular meeting.

DECEMBER – The COG Annual Christmas Party,
Saturday, December 12, 1998. 6:00 p.m. at the Waldens' home.

Get your devious minds working early. Every Christmas the COG has a gift exchange and dinner. The object of the gift exchange is humor. Members so inclined, most are, bring a gift and put it under the Christmas Tree. Everyone who brings a gift draws a number. The number determines the order in which gifts are drawn.

As stated the object is humor. The original custom required the recipient of a gift to use it on his next caving trip. This spirit continues.

Watch for more on the COG Christmas Party later.

The 1998 NSS Convention Sewanee, Tennessee

The 1998 NSS Convention is being held from August 3-7 in Sewanee, Tennessee. Sewanee is a small southern town located on top of Monteagle Mountain.

Sewanee is located off I-24 between Chattanooga (45 miles to the southeast) and Nashville (90 miles to the northwest). Modern airports are located in Chattanooga, Huntsville, and Nashville; there is also a small municipal airport in Sewanee. Sessions will be held at the University of the South (<http://www.sewanee.edu/>), a beautiful campus in the middle of the town.

Sewanee, Tennessee is in the heart of TAG country. (For those of you, who don't know, TAG is for Tennessee, Alabama, Georgia.) This is the country of cave legends, the deepest caves in the United States, some of the best horizontal caves, an area rich in cave history and prehistory, wet caves, dry caves, whatever your flavor in caves might be you will find it here. (Well, sorry no lava tubes!)

The 1998 convention is being held at the very beautiful University of the South. The buildings are of the style of Oxford, England. This is an Episcopalian university. It is not dry! The university is among the highest rated liberal arts colleges in the nation. When you arrive at the convention, be sure to pick up a copy of *Under the Sun at Sewanee.* This little book describes many walks and the environment around Sewanee. As I remember, it even describes some caves that can be found on the campus.

The last Sewanee convention was in 1989. It was a great and memorable convention. Do – Do attend this 1998 convention. Bill Walden – COG Squeaks Editor.

Sunday August 2:

Field Trip & Tour Information

GEOLOGY/CAVER'S FIELD TRIP

There will be two different geology field trips on Sunday. The standard geology trip will be for those who want to be exposed to the Cumberland Plateau. The caver's trip will focus on limestone beds, the primary cave bearing formation in the area. The guide on the caver's trip promises to use short sentences and small words. Reservations are required so that we can provide adequate transportation.

These trips will be all day trips. They will leave early Sunday and not return until after dark. Lunch and supper will be provided. The geology field trips are based around a model developed by the Geology department at The University of the South where the convention is sited. Sewanee sits at the junction of the Cumberland Plateau and the Valley and Ridge

area. The trip will sample both areas. There will be several fossil collection sites featured with time for collection by participants. There will be two levels of explanation. In one bus a university professor will be able to answer questions on a scientist's level. On the other bus, a well-known caver from the area will aim the dialogue at the level of cavers. Space is limited. It is necessary to indicate which bus you want to be on.

CIVIL WAR HISTORY TOUR

Noted caver and civil historian, Marion Smith will conduct this trip. This trip will leave early Sunday and get back late that night. Lunch, Supper and snacks will be provided. The tour will follow the movements of the Union army from the central Tennessee area toward the Chattanooga area. It will feature a special tour of the Chickamauga Battlefield and museum. Also, there will be a visit to Point Park where The Battle Above The Clouds was fought. This trip is limited to two buses so register early.

CUMBERLAND CAVERNS TOUR

Cumberland Caverns Tour: One of middle Tennessee's classic commercial caves will be visited on Tuesday afternoon. You will be transported by air conditioned bus. The visit will include the famous historic entrance tour. It features the development of the cave from the first visits to the world class commercial cave it is today. The cave is owned and operated by long time NSS member and early pioneer Roy Davis. After the caving trip, Supper will be provided the Grand Ballroom (and we do mean grand). Also you will have the opportunity to view the commercial tour. You will be back in time for bed. Preregister now for a place on the bus.

Note: All field trips will be on modern air conditioned buses

And yet, even more and more!
